EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Glen Schumann (Reg. No. 31,058) on April 13, 2007.

The application has been amended as follows:

In claim 1 line 18 the term "and" has been deleted.

In claim 1 line 21 the terms "; and wherein the participant only receives the reward associated with the selected level of performance even if the participant achieves a higher level of performance than the selected level of performance".

Claim 6 has been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims 1, 24, and 41-58 in this case is the inclusion of the method steps where a sponsor defines a hierarchy of performance levels and associated rewards; where the participant pre-selects a particular performance level; where the participant's actual performance is compared to the selected level of performance and where the participant is only granted the reward

Art Unit: 3627

associated with the selected level if the performance level associated with the reward is achieved; and where the participant only receives the reward associated with the selected level of performance even if the participant achieves a higher level of performance than the selected level of performance included in the independent claim 1, in combination with the other elements recited, which is not found in the prior art of record.

Japanese Patent JP411257986A, inventor Sugita, discloses a system that allows users to set goals, but does not disclose the claimed method steps where a sponsor defines a hierarchy of performance levels and associated rewards; where the participant pre-selects a particular performance level; where the participant's actual performance is compared to the selected level of performance and where the participant is only granted the reward associated with the selected level if the performance level associated with the reward is achieved; and where the participant only receives the reward associated with the selected level of performance even if the participant achieves a higher level of performance than the selected level of performance

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elaine Gort whose telephone number is 571/272-6781. The examiner can normally be reached on Monday and Thursday.
